

## Happy Valentine's Day!!

February is our "Community Workers Month," starting out with our Dentist/Doctor Week. We ask that you send your child's favorite stuffed animal to school this week so the preschoolers can take care of their special "patients". The following week is a big celebration with the 100th Day of Preschool landing

on Wed., Feb. 8th, so naturally that week is our Counting Week. Kindness will be our focus during Valentine's Week as our school turns into a post office and the preschoolers deliver mail all week. The kids will have their own little party on Valentine's Day and they are welcome to send Valentines to school for all of their classmates,

but please nothing edible (just like birthdays). I will send an email with the list of preschoolers' names. We will end the month with Construction Week with loads of building and engineering projects - another favorite week around here!

Music started up again in January and has continued to be a highlight during the week. In February and March, Miss Rachel will be doing music lessons on Wednesdays 9:00 - 10:00. The calendar on our website is updated through the end of the school year now so please refer to that for our events, themes, letters of the week, etc.

Finally, we have a few openings for next school year and would appreciate it greatly if you would help us spread the word. Nothing is more effective than positive word of mouth!

That wraps up February's announcements. It should be another fun month with the kiddos!

## February 2017

### Fun with music!
